

ABOVE TOP SECRET

The Real Jim Marrs - Live and Unsensored

August 8, 2009

1:00 - 4:00 pm

**Sedona Creative Life Center
333 Schnebly Hill Road**

Even the most highly intelligent person in the world cannot come to a truthful and correct opinion on any issue if operating on erroneous or incomplete information. One must know all one can about a wide variety of topics. New York Times bestselling author and journalist **Jim Marrs**, brings together some answers to questions that have preyed on many people's mind. Such as: Was 9/11 an inside job? Is the supply of oil peaking? Why did the air force change its story on Stephenville? Is free/alternative energy being kept from the public? Is the Federal Reserve a scam? Are chemtrails for real? Who killed JFK? What flew over Phoenix? Were the moon landings faked? Who parked the moon? What crashed at Roswell? Is God an alien? What will happen in 2012?

Marrs tackles controversial issues by asking the fundamental questions that were once taught to beginning journalism students --- Who, What, When, Where and Why. Armed with these basics and hopefully a dash of deductive reasoning, attendees will be prepared to take on the world of mystery and conspiracy.

"I don't believe that!" is no longer a valid argument and if something can be proven, it is no longer a theory.
