

SPONSORSHIP OPPORTUNITIES

Four Directions Wisdom Gathering

May 18-20, 2007 at the Sedona Creative Life Center in the Mystical Red Rocks of Sedona, Arizona.

Produced by Dr. Chet & Kallista Snow and Karen Koebnick (*Sedona Spiritual Journeys*)

This series of meetings is designed to awaken, stimulate, and explore our passion and purpose. With health, global interdependence, eco-responsibility, peace and spirituality as the primary context of our events, we are bringing together leaders from many faiths, cultures, and belief systems with the intention of co-creating a positive world that works for everyone... Our focus is:

- Seeking higher ground, transforming our world for our children and future generations
- Exploring new ideas, shedding the illusion that social and ecological balance makes us special - it does not - it makes us human.
- Investigating new health paradigms used by the ancients for generations.
- Gleaning wisdom from recognized native "elders" to guide us through these long-predicted Times of Change while they still walk among us.
- Re-connecting with sacred space in loving and practical fellowship with like-minded Seekers. Sedona's sacred landscape can amplify either positive or negative energy so gathering here first to "talk story" with our elders will send a powerful, positive vibration across the land.
