## ***The Heart of Transformation – Activate Your Heart's Intelligence***

*The Heart of Transformation – Activate Your Heart's Intelligence* program is designed to increase how to access the intelligence of the heart, to understand the interactions between humans and the earth's energetic fields and to join together using our collective "heart" to help create more ease and flow through coming changes for ourselves, humanity and the Earth.

During this training program, Deborah Rozman will present pioneering research conducted at the Institute of HeartMath, along with techniques and methods for those seeking self-empowerment during these dynamic times.

In your training program you will:

- Hear about the science behind the Global Coherence Initiative, the effect of solar cycles on the earth's energetic fields and their effects on people and society.
- Learn scientifically-validated techniques that increase access to intuition, improve health, performance and well-being.
- Receive information about energetic field environments and how to influence them for creating positive changes.
- Experience changes in the heart's communication with the brain and body in real-time.
- Activate the power of positive emotion to feel more clear, energized and empowered.
- Increase your soul connection using heart coherence and help raise the planetary consciousness with heart-based intentions.

**Global Coherence Initiative** is bringing together a critical mass of people to help build a collective heart-coherent energetic field and provide a baseline of coherence on the planet. We feel that when enough people are practicing heart coherence together, we can help to lift the heart vibration of the planet – along with many other caring groups and individual intentions.

Beyond 2012 is a time of transition and acceleration when we all will make important choices; choices that will have impact on the future of our world. Great opportunities as well as challenges are at hand. How will we respond? Join us to gain the skills we each need to create a new world, better navigate our future and facilitate the shift in global consciousness from instability and discord to balance, cooperation and peace.

The **Global Coherence Initiative** is a science-based, co-creative project to unite people in heart-focused care and intention, to facilitate the shift in global consciousness from instability and discord to balance, cooperation and enduring peace.
